

FOOTNOTES

1. Pride® FDA Class II Medical Devices are designed to aid individuals with mobility impairments.  
2. Varies with user weight, terrain type, battery amp- hour (AH), battery charge, battery condition and tire condition.  
This specification can be subject to a variance of (+ or -) 10%.  
3. Battery weight not included.  
4. Due to manufacturing tolerances and continual product improvement, this specification can be subject to variance of + or - 3%.  
5. Battery pack is 19.5 lbs. with 12AH batteries.

6. Deep cycle (AGM or gel cell type recommended).  
7. 18 AH battery pack weighs 29.5 lbs.  
8. Tested in accordance with ANSI/RESNA, WC Vol 2, Section 4 and ISO 7176-4 standards. Results derived from theoretical calculations based on battery specifications and drive system performance. Test conducted at maximum weight capacity.  
9. Battery weight may vary based on manufacturer.  
10. Width of base (not including seat).  
11. Includes standard seat weight.

12. Must be billed to Medicare as either a beneficiary requested upgrade with a properly executed ABN, or as an upgrade at no additional charge to the beneficiary..  
13. Light package.  
14. Interchangeable shrouds (all shroud panels included).  
15. Results derived from theoretical calculation based on battery specifications and drive system performance. Test conducted at maximum weight capacity.

END-TO-END

\*Non-Medical Devices: This product is not a medical device and is not intended to assist, treat, diagnose, or alleviate any medical condition or disability.  
\*\*K0899: Power mobility device, not coded by DME PDAC.

DME providers are responsible for determining the appropriate billing codes when submitting for insurance reimbursement. HCPCS codes provided should not be considered as legal advice and do not guarantee reimbursement. Payer coding, coverage, and bundling guidelines may apply.

The information contained herein is correct at the time of publication; we reserve the right to alter specifications without prior notice. Speed & range vary with user weight, terrain type, battery charge, battery condition and tire pressure. Due to manufacturing tolerances and continual product improvement, length, width, turning radius and ground clearance can be subject to variance of + or – 3%.
